Editing

Content – static text and image only

The Cofactor Summary

Content – static text and image only

Workshops

Content static text and image.

Testimonial sidebar possibly... fully managed by Client

JOURNAL SELECTOR TOOL

This is a free web tool that will use faceted search to narrow down a list of journals using the user's criteria – a data table can be supplied.

This must be very intuitive to use.

This will need to be developed.

Search facility... for journals and how to narrow your search

Upload and input files for search criteria

CONTACT

Contact form, Phone number, Social information

BLOG

to be fed from <http://sharmanedit.wordpress.com> to provide continuity

(Re-direct from old URL to this URL and place existing content from blog posts.)

PAYPAL

Content static text and image.

Page from link present on all pages with own page.

User will be able to input an amount and pay the Client directly.
